DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 18, and 21, are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 18, and 21, recite the limitation folding means, and folding device respectively. The instant specification does not support this limitation. The specification does not teach any means or devices that performs the function of folding. the instant specification, on page 11, paragraph [0058], discloses a "film cutting and tacking chamber 302". This is not the same as a folding device or folding means. The specification does not disclose or suggest that the tacking chamber performs the function of folding as recited in claims 18, and 21. Appropriate correction is required.

Allowable Subject Matter

3. Claims 5-9, 12-17, 19-20, 22-33, are allowed. See final rejection mailed 08/27/2009, paragraph nos. 3, and 4, and Applicant's remarks filed 11/23/2009.
